SUPPLEMENTAL NOTICE OF ALLOWABILITY

OFFICE ACTION

Examiner's Amendment

1) An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Lance Lieberman on June 26, 2008.

The application has been amended as follows:

IN THE CLAIMS:

In Claim 8 Line 2 Please delete “, in particular a highly doped Si layer”

REASONS FOR ALLOWANCE

2) The following is an examiner's statement of reasons for allowance: Upon review of applicant's remarks it is the examiner's opinion that the case is deemed allowable over prior art for the following reasons. The critical step of (b) in

independent claim 1 referring to the timing of affixing a thermal radiation absorption layer which would be comprised of a highly doped silicon material affixed to the underlayer of the SiC substrate, which would then serve for construction of an AlGaInN semiconductor material. The crucial point of this allowable claim however deals with when the "thermal absorption layer" is affixed to the substrate, which is what makes the claimed method invention allowable over prior art searched by examiner.

For any further information please review Attorney's remarks from 4/4/08.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
